To Prevent Chafing.

The period of summer is a special time for chafing. It is caused by the heat and the friction of the clothing. To prevent chafing, it is best to use a cream or ointment that will soothe the skin and prevent the heat from doing any harm. The best of these is a cream of zinc oxide and lanolin. It is sold in many drug stores and is very cheap. It should be used every day, especially when going for a tramp, and every few days bathe with alcohol to soothe the skin.

Washing Sweaters.

"When I washed my fine white sweater it shrank so that I was scarcely able to get it on," said a young housewife the other day. "The bottom dried in ripples and the pockets stretched to twice their size. Next time I stitched the pockets in place before wetting. I prepared a lukewarm suds of white soap and carefully washed the sweater in this, afterward rinsing it several times. Then I squeezed it dry. Over my dressmakers' form I pinned a sheet and put the sweater on the form, patting into shape and stuffing each arm with a rolled bath towel. When dry it was as large as when new and fitted me even better."

The woman who waits may miss the best values this season

WHEN new fabrics were first offered for fall, makers of garments bought little. They hoped for a drop in prices. But the Wooltex Tailors bought much of the finest-Dubiays, Duffield Weaves, Lustre Velours, Shepherd Checks, Broad Cloths, Poiret Twills, Velours, etc.

Then prices went up--way up. Now our special order of Advance Wooltex Coats & Suits has arrived--showing all these most wanted fabrics in values that probably cannot be matched in America. Many a woman has use right now for such Coats & Suits--when motoring, driving, golfing or out-of-doors on every occasion. Then, too, the season of cold days and chill winds is not far distant.

It's a pleasure, also, to step out the first cool day with a comfy Wooltex Coat or Suit of the latest mode. We are illustrating a few of the late models. Note the smart designs. And remember that the Wooltex Label means the garment will stay fresh and shapely throughout the season.

Such values cannot come again this Fall or Winter. We suggest you act quickly--our stock of these Wooltex Coats & Suits is limited. This season it will not pay to wait.

This authority will not be construed to authorize any more enlistments in the Enlisted Reserve Corps in excess of those already authorized.

Couldn't Tell. Two farmers met in a certain town a day or two after a cyclone had visited that particular neighborhood. "She shook things up pretty bad out at my place," said one, stroking his whiskers meditatively. "By the way, Hi," he added, "that new barn of yours get hurt any?" "Well," drawled the other, "I dunno, haven't found it yet." An Ancient Clock. The Tour de France is a square tower which forms part of the Palace of Justice in Paris, the oldest building in France. It dates from 1100. READ THE STAR & SENTINEL.
